UCSD Mathematics

Department Computer Account

Name:	Ferrara, Joseph

UCSD Math Username:	jferrara
UCSD Math Password:	kr3!EZK@

UCSD Active Directory (AD) Account:

AD USERNAME = jferrara
AD PASSWORD = kr3!EZK@

EMAIL = jferrara@ucsd.edu

Web Email:

https://gmail.ucsd.edu/

Department Unix Login Servers:

euclid.ucsd.edu."gwgt0veuf0gf w

Department Web Site:

https://www.math.ucsd.edu/

Email Address for Computer Help:

mathhelp@math.ucsd.edu

Graduate Students: ACS Student Account

If you are a graduate student, an **ACS Student Account** has **also** been created for you by Academic Computing Services (ACS). Your ACS Student Account is for use in ACS computer labs located all over campus and for other ACS network services.

Go to the ACS web site *(http://acs.ucsd.edu/)* and use the "Student Account Tools" option to find out more information about your ACS Student Account, including which ACS computer labs and servers you have access to and how to change your ACS Student Account Password.

Email is the **official communications method** of UCSD to students. Please check your email often for any important notices.

UCSD Computer Account Information

If you are a UCSD-paid employee (e.g. faculty, staff, teaching visitor, etc.) or graduate student, a **UCSD Active Directory (AD) Username/Password** has **also** been created for you to use campus network services, including the campus "*UCSD-PROTECTED*" wireless network, VPN, etc.

Non-UCSD employees and other department visitors/guests should contact mathhelp staff if they wish to use campus network services.

Teaching faculty and instructors may also receive additional info later regarding instructional computing resources including Blink: Student/Class Info *(http://blink.ucsd.edu/instructors/)*, the Instructional Technology Guide *(http://blink.ucsd.edu/faculty/instruction/tech-guide/)*, etc.

Department Computer Resources

Most department offices have at least one computer available for basic email, web browsing, TeX/LaTeX typesetting, word processing, mathematical computation, and other Internet network tasks.

Computers running Apple macOS, Microsoft Windows, or Linux/Unix, along with with printers and scanners, are available in the department computer lab in AP&M 2331. To enter the lab, you must first obtain your unique OMNILOCK door code from the Department Coordinator in AP&M 7313.

To remotely login to an interactive terminal shell session on a department Linux/Unix login server, use "ssh" (Secure Shell) to connect. To transfer files, use "sftp" or "scp".

Email and Email Addresses

You can use the UCSD webmail service:
https://gmail.ucsd.edu/
to read your email or you can follow these directions:
http://blink.ucsd.edu/technology/email/tasks/clients/
to configure your preferred email client.

Passwords and Security

To change your passwords, go to the web site *http://www.math.ucsd.edu/changepassword/* and follow the directions for the specific account password you want to change.

Do NOT share your passwords ever! You are personally responsible for maintaining the security of ALL your UCSD computer accounts.

How Do I Get Computer Help?

For computer help, please email "**mathhelp@math.ucsd.edu**". Answers to frequently asked questions are available in the "Computing Support" section of the department website *http://www.math.ucsd.edu/resources/computing-support/*.

You can also stop by the Mathematics IT helpdesk in AP&M 6018 or call (858) 534-4591.
